

J. NIGEL ELLIS – Ph.D., CSP, P.E., CPE, CEO
Ellis Fall Safety Solutions LLC

Dr. Ellis has more than 40 years of safety engineering experience. He is the CEO and founder of Dynamic Scientific Controls (DSC) and President of its division Ellis Fall Safety Solutions. His lifelong mission and that of his businesses is focusing on the elimination and control of occupational fall hazards. Dr. Ellis' unsurpassed experience and knowledge has made him an internationally renowned expert in the fall protection field. Based on this expertise Dr. Ellis has performed fall hazard assessments in hundreds of facilities and construction sites and has been retained as an expert witness in about 1000 fall related cases nationwide.

Dr. Ellis is a founding member on American National Standards Institute ANSI Z359 the former chairperson ANSI Z359.2 committee and is a contributor to other ANSI committees, as well as various ASTM committees. These committees prepare and revise the nation's fall protections standards, and provide a foundation for regulations and Dr. Ellis' participation has been consistent since inception. He is Co-Chair of the ASTM Skylight Human Impact committee.

Dr. Ellis is a board member of the International Society for Fall Protection (ISFP) and is a past chairperson of the International Safety Equipment Association Fall Protection Group. Dr.

Ellis, through his written comments and hearing testimony, has been instrumental in the development of numerous OSHA fall protection standards.

Dr. Ellis regularly serves as a speaker at leading industry association and society meetings, including the annual American Society of Safety Engineers and National Safety Council conferences. Dr. Ellis also has developed the course work and materials for safety related training courses, including Competent and Qualified Persons in Fall Protection. He has consulted for many Fortune 100 companies including Alcoa, DuPont and Exxon. His book “Introduction to Fall Protection” – now in its fourth edition – is considered the seminal resource for fall protection and is the only textbook to be named reading for the CSP exam and also referenced on the OSHA resource web page.

Dr. Ellis earned the 109th recipient of the ASSE Fellow Honor Award in 2010 and is a Professional Member of the American Society of Safety Engineers (ASSE) with memberships in the Construction and Consultant Divisions. In 2011, he was awarded the prestigious ASSE Thomas F. Bresnahan Standards Medal for voluntary standards excellence. He is also a National Safety Council Distinguished Service to Safety Award winner in 2007 and is now President of the Veterans of Safety (VOS) 2011, devoted to Senior Safety and Health professional development and communication.

A native of Middlesbrough, UK, Dr. Ellis earned three degrees at the University of Manchester, including a doctorate in chemistry and he is a Registered Professional Safety Engineer in Massachusetts and California, a Board Certified Safety Professional and a Board Certified Professional Ergonomist, (Human Factors).
